N. B. The usual expenses of a liberal education are very much diminished by the ample library of the *Beneficent Society;* from which indigent students are gratuitously furnished with text books; and other students, at a small expense.

To prevent unnecessary expenses, as well as for other important purposes, it is recommended that every student from a distance, especially if young, should be placed under the particular patronage of some gentleman in Middlebury, who will attend to the appropriation of his money.
